

- *Oasis™ 88 Goes to work quickly to reduce the impact of mineral salts that cause soil compaction and interfere with seed germination and root development*
- *Oasis™ 88 Improves water infiltration, making more water available for root uptake*
- *Oasis™ 88 Promotes even seed germination*
- *Oasis™ 88 Enhances root development, providing more robust plants and uniform plant stand*
- *Oasis™ 88 Reduces soil compaction through better particle flocculation*
- *Oasis™ 88 Larger and healthier crops and better yields with less agricultural chemicals and reduced phosphate use*
- *Oasis™ 88 The ability to reduce soil salinity and alkalinity*

CONTAINS AQUEOUS POLYMER SOLUTION

OASIS™ 88
Class: Plant growth support (soil enhancer)
Action: Neutralization of salts in the soil
Composition: Oasis™ 88 is based on an aqueous solution of polycarboxylic acids
Activity: Oasis™ 88 interacts with clay suspension forming large and stable aggregates and allows faster leaching of salts away from the root zone. Oasis™ 88 also conditions the soil and improves the movement of water and nutrients

IMPORTANT:
Compatible with most Herbicides, Insecticides, Fungicides and Water Soluble Fertilizers.
Oasis™ 88 is not affected by chlorine, or other oxidizing biocides, under normal use conditions. It is stable and compatible under normal temperature conditions.

DIRECTIONS FOR USE:
Oasis™ 88 dosing rate and dosing method is influenced by various factors, including Soil structure, Soil chemistry, Irrigation water chemistry, Irrigation method, Agricultural chemical used, Farming practice, and the types of crop. Please discuss with the respective Oasis representative before use if required.

CROP RANGE:
No Limitations. Tested on over 70 different crop and pasture types, and all soil types.

FIRST AID MEASURES:
EYE CONTACT: If this product comes into contact with the eyes:

- Wash out immediately with fresh running water.
- Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving eyelids by occasionally lifting the upper and lower lids.
- Seek medical attention without delay; if pain persists or recurs seek medical attention.
- Removal on contact lenses after an eye injury should only be undertaken by a skilled professional.

SKIN CONTACT: If skin contact occurs:

- Immediately remove all contaminated clothing, including footwear.
- Flush skin and hair with running water (and soap if available).
- Seek medical attention in event of irritation.

INHALATION:

- If fumes or combustion products are inhaled remove from contaminated area.
- Lay patient down. Keep warm and rested.
- Prostheses such as false teeth, which may block airway, should be removed, where possible, prior to initiating first aid procedures.
- Apply artificial respiration if not breathing, preferably with a demand valve resuscitator, bag-valve mask device, or pocket mask as trained. Perform CPR if necessary.
- Transport to hospital, or doctor.

INGESTION: Rinse mouth out with plenty water.

- If swallowed do NOT induce vomiting.
- If vomiting occurs, lean patient forward or place on left side (head down position, if possible) to maintain open airway and prevent aspiration.
- Observe the patient carefully.
- Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.
- Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.
- Seek medical advice.

Indication of any immediate medical attention and special treatment needed.
Treat symptomatically.

WARRANTY NOTICE:
SELLER WARRANTS THAT THE PRODUCT CONFORMS TO ITS CHEMICAL DESCRIPTION AND IS REASONABLY FIT FOR THE PURPOSE STATED ON THE LABEL WHEN USED IN ACCORDANCE WITH DIRECTIONS UNDER NORMAL CONDITIONS OF USE. NEITHER THIS WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE, EXPRESS OR IMPLIED, EXTENDS TO THE USE OF THIS PRODUCT CONTRARY TO LABEL. INSTRUCTIONS, OR UNDER ABNORMAL CONDITIONS NOT REASONABLY FORESEEABLE TO SELLER AND BUYER ASSUMES THE RISK OF ANY SUCH USE.
